

## Instruction

Planning and travel planning strategy advice

## Client

Ipswich Hospital NHS Trust

## Project Details

Ipswich Hospital occupies an 18.5 hectare campus and provides acute health services to the population of Ipswich and surrounding area. The NHS Trust has been implementing several development projects as part of its estate strategy, which has required planning consultancy advice and support. A site masterplan has been prepared, which has served as a framework to bring forward detailed planning applications such as a Maternity block, Oncology and Haematology unit and large surface car park.

## LPP's Role

- Planning feasibility and policy advice and input to Estate Strategy and Site Masterplan
- Working with the Trust's appointed architects and liaising with LPA and Highway Authority planning and transport officers.
- Preparation and submission of planning applications for operational healthcare developments and securing related consents.
- Commissioning and coordinating survey work and reports related to specific planning applications and a planning appeal.
- Preparing a car parking strategy and travel plan reviews and securing a related planning consent following a planning appeal.
- Securing planning consent for signage strategy across the Hospital Campus
