

## Instruction

Planning feasibility advice in relation to a potential renewable energy development in St Osyth, Essex

## Client

Windmine Ltd

## Project Details

In 2007, LPP were instructed to provide feasibility advice in relation to the planning policy and environmental impact considerations for obtaining planning permission for an 18 ha micro windfarm proposal comprising 20 x 11 kilowatt turbines with associated plant at Frowick Lane, St Osyth.

## LPP's Role

- Planning feasibility advice
- Screening for Environmental Impact Assessment
- Identifying the costs for assembling a multidisciplinary consultancy team and for project managing the planning process
